**10/2014 - present Project:** Portal for supporting the process of buying gifts  
Founder, developer  
Me and two of my friends wanted to create an app where user can create his gift list for every occasion, share it or hide from other users, buy gift for friend.  
Platform has also simple recommendation system which is based on similar user's facebook

**10/2014 - present Wikia Inc.**  
Front-end developer (internship)  
I'm a part of the Mobile Web team. Currently we are working on big project which will totally restructure and change wikia pages. I'm using JavaScript, Ember.js, TypeScript, PHP, node.js, gulp, git.

**01/2014 - 02/2014 Asseco Poland**  
C# programmer (internship)  
Project: preparing existing software for being translated into other languages. Error and bug correction.
